

Description	Evaluation	Likelihood	Impact level	Risk Score	Responsibility	Response	Control measure
Unable to meet Deadline	Application incomplete	Medium	High	6	Developer	Dedicate more time or otherwise agree to alternative deadline	Monitor progress throughout project and discuss any potential delays
Another lockdown occurs	Prevents in person collaboration	Low	Low	1	Owner	Utilise an online platform, such as Teams, for collaborating	Adhere to government guidelines to reduce risk of infection
Commit mistake results in loss or undesirable alteration of code	Application does not function as intended	Medium	High	6	Developer	Utilise version control to carefully monitor changes and prevent unintended changes	Utilise branches alongside regular commits
Computer/hardware failure	Inability to access any code stored on the PC	Low	Medium	2	Developer	Utilise alternate device while the original is being fixed and download latest version of the code from version control	Ensure commits are regularly pushed to GitHub to minimise potential losses on hardware failure
Change in project specification	More time may be required to complete the project	Medium	Medium	4	Owner	Approach the changes with high priority while communicating any necessary schedule changes	Frequently communication with owners to ensure they are happy with the product
Misunderstanding project specification	Part of the application does not function as the owner desires	Low	High	3	Developer	Upon discovery of misunderstanding, rectify it as quickly as possible	Clarify with the owner any aspects of the project that could be misunderstood at the start, as well as regular check-ins throughout

		Impact level		
		Low	Medium	High
Likelihood	Low	1	2	3
	Medium	2	4	6
	High	3	6	9
